

# Think Central

Think Central is an online resource that supplements and supports our math curriculum, Math Expressions. Here are some helpful hints when exploring Think Central online.

**Website:** <http://www-k6.thinkcentral.com>

**Username:** your child's student ID number (6 digits)

**Password:** Math2018!

---

## Ready to Explore?

Once logged in, click on **My Library**. Then, choose from the following.

### Mega Math

1. Select **Mega Math** to play games.
2. First grade games are found under **Country Countdown**.
3. Choose activities from **Block Busters** or **Counting Critters**.
4. Under each category there are choices from A through Z with different levels of difficulty. Feel free to play games at any level!

### iTools

Under iTools (virtual math manipulatives), students can practice with:

- Counters
- Math Mountains
- Base Ten Blocks
- Secret Code Cards

Once you have selected the iTools you would like to use, you can explore with the manipulatives freely, or select the tab on the top right that says **Activities**. Have fun exploring!

### Student Activity Book

1. Select **Flash eBook**.
2. The first button on the top, left looks like a brown book. It is the **Table of Contents**.
3. Select the unit and lesson we are currently on.
